

## Maths

In Maths Year 2 will be grouping and learning the associated multiplication and division facts for the 2, 5 and 10 times table. The children will also be introduced to 2D and 3D shapes.

Year 3 will be developing written methods for addition and subtraction, learning the 2, 4 and 8 times tables as well as being introduced to area and perimeter.

## History

In history we will be learning about the early hunter-gatherers of human life during the stone-age and how life developed from a nomadic lifestyle to creating settlements and the development of tools. After half-term we will learn about life in London in 1666 and the effect of the Great Fire of London.

## Computing

This term there will be a focus on computational thinking and problem solving. We will be using Scratch Junior to create simple animations and solve problems constructing block-based algorithms (instructions).

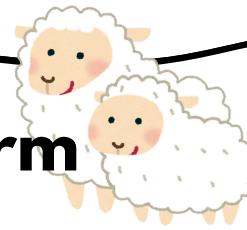

## Science

We will start the term by learning about forces and magnetism. This will include not only identifying forces but also following different lines of enquiry to develop an understanding of scientific investigation. We will then move on to studying about animals and what they need to survive and their adaptations.

# Spring Term

## Art & DT

We will first be creating replica cave paintings linked to our Stone Age topic. After half-term we will make 3D dioramas linked to the Great Fire of London.

## English

At the start of the term we will study George's Marvellous Medicine linked to descriptive writing and instructions. After half-term we will write two recounts, one as a diary entry and the other as a newspaper report linked to the Great Fire of London. The children will also be introduced to some poetry writing with a focus on Desk Diddler by Michael Rosen.

## RE/PSHE

In RE we are focussing on Hinduism and then moving onto the importance of Good Friday. In PSHE we will learn about citizenship and working together and how to make safe choices such as resisting peer pressure.

## Music

In music, we will be learning about composition, creating pieces using the Djembe drums and recorders. After half-term, the children will study Vivaldi and 'The Four Seasons'.

## PE

Gymnastics - Balance and hand apparatus  
Games - Invasion games
