

Maths

Across both years 3 and 4 we will be starting to recap place value, representing numbers up to 10,000 and rounding integers. We will then move onto recapping addition and subtraction strategies, learning the column method whilst touching on the rules for multiplication and division, starting to prepare the years 4s for the multiplication check.

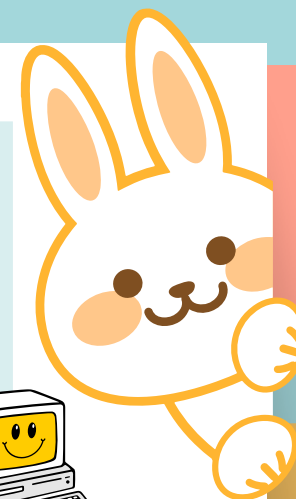

Topic - History

This whole term will be mainly focussed on history, exploring the life of the Ancient Egyptians. We will explore their beliefs, some of their traditions linked to these and their amazing feats of engineering – the pyramids – and how they tracked the night sky. This topic will link across other subjects too such as English, dance and our art and design topics.

Computing

This term will focus on networks and how digital devices communicate. We will simulate how information is shared and learn some key device terminology. We will then be preparing for the online Bebras coding challenge – a national computing competition.

Science

We will start the term learning about how different groups of animals are classified and grouped. We will learn how different species have adapted to their environment in order to survive. After half-term, we will build on our knowledge of shadows applying scientific thinking in a range of different investigations.

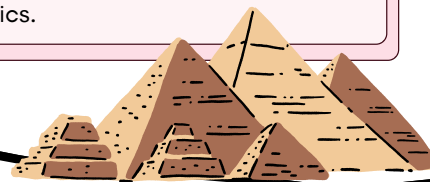

PE

Gymnastics – Patterns and Pathways
Games – Ball Handling Skills
Dance – The solar system

Autumn Term

Art & DT

We will start with a sculpture based project creating replica cartouches and in design technology, create replica pyramids.

English

Fiction: We will start the term writing our own adventure story based on the short film Tadeo Jones, exploring the inside of a pyramid. We will also be writing some poetry linked to our science topic of classification.

Non-Fiction: We will also write a recount based on the discovery of Tutankhamun and write a set of instructions based on mummification – great fun!

RE/PSHE

This term we start by focussing on what Christians can learn from the creation story, followed by the story of Jonah and what Christian baptism is. In PSHE we will be looking at how to work together to build positive relationships.

Music/French

We are following a unit inspired by a Rodeo Hoedown, listening to music by Aaron Copland and making our own compositions. In French we will be focussing on greetings, numbers and our families.
